The Road that leads out from Droughtland

RAIN WHEN
REQUIRED

RAIN WHERE
REQUIRED

THE

NUNAN SYSTEM of IRRIGATION

So long as the spectre of Dry Weather is allowed to wander unchecked through Droughtland, there will be days and nights of heatings and dread for the farmers of the soil.

Drive out the spectre along the road that leads to Green Crops and fortunate times.

The Nunan Patent System of Irrigation solves the problem of "no rain" in a natural and efficient manner. Water is distributed with the gentleness of rain over the area where and when it is required.

There is no waste either of water or pumping energy. The system is simple, and needs the attention of only one man. Galvanized iron piping is used throughout, requiring a life-time of wear.

The Nunan System is suitable for crops, orchards, or gardens. The cost is far less than you would expect—in fact, it is possible for the Nunan System to pay for itself twice over in one season. We can give you particulars of actual performances of this kind.

Look further into this wonderful system of irrigation—hear how others have been benefited. Read of the quality and amount of growth the Nunan System produces. Write us, Desk "A," for particulars.

SHEEP AND CATTLE SPRAYING OUTFITS.

Sheep and cattle owners are beginning to realize the benefits of **SPRAYING** their stock for the eradication of blowfly and tick. Bazacott's have gone very deeply into the question with a view to finding these **SPRAYING OUTFITS** most suitable for the purpose. To-day we are ready for you with outfits to suit any size run—to suit any purpose. We illustrate three here—we can tell you of half a dozen or more others. Send to Desk "A" particulars of your requirements and we will tell how we can meet them.
